But Five Cities In the Country Ap-

ago, while exports are smaller by more than a quarier. The prevailing belief is the yield will, as in recent years, far exceed the government indications, which are again pointing to a short crop.

Corn has changed but little, and corn little with the li

REVIEW OF THE STOCK MARKET. New York, May II .- Bradstreet's review of the stock market tomorrow will say Entire alsence of any buil professional interests in speculation, ineffectual ef-

he continuance of the gold shipments Europe, which amounted for the week \$0.00,000 has attracted attention but sears to have had no influence on spec-tive sentiment.

garive sentiment.

The extreme case of the money mar-ket is in this respect a controlling factor and, indeed, furnishes the most cosent reason of the absence of any tendency to hundate. Interest in the industrials cen-tered, as usual, in Segar, which was the object of manipulation, starting with a proak and followed up by miscisive illu-relations.

AS VIEWED BY BRADSTREET.

New York, May II.—Bradstreet's review of the state of trade tonorrow will
say. Warm weather has stimulated farm work as well as sales in seasonable lines

on prospective scarcity due to lack of fuel.

At western points, producers report firmness of soft steel and mills supplied with orders for see earl months. Shapes and plates are firmer, but in the face of this foundry irons, in instances, are weaker in price. A potent influence favoring higher quotations for pig iron, is the reduction in output, within six weeks, of shout one-third, and a prospect for an extension of restricted production.

A significant evidence of the condition of general trade is found in the report of gross railway earnings during April, which show a heavier decrease from the total in the same month last year than law preceding months since January I. 143 per cent. Increased railway earnings last month, compared with April, 180, are few and trifling. Total gross sarnings for April this year by 118 companies are \$3,000,000, against \$26,000,000 inst year. For four months of 189, gross caraings smount to \$12,000,000, a decrease from the corresponding time last year of 13.7 per cent. Pacific railronds show the heaviest decrease and trunk lines the smallest.

Lack of Confidence Noted in the

Bay: Warru weather has stimulated farm work as well as sales in seasonable lines of merchandise, but renewed tariff uncertainty tends to prolong the period during which merchants will continue to have for actual needs only, evidences of which fact have appeared.

Bank clearings this week amount to \$20,000,000, a decrease of 5.5 per cent. from the week before, and a decrease of 5.5 per cent. from the week before, and a decrease of 5.5 per cent. compared with the second week of May last year, when the total clearings were among the largest on record.

The breat coal mines' strike has been extended in the far wess and portions of Maryland and the Virginias and this has been reliewed by an increase in the number of industrial abut downs due to increasing scarcity of feel. Not far from 15,000 men are reported idle in the coal trad' alone, and with those folle or striking in other lines, the total out owork is not less than 125,000.

Destruction of property has been a feature of the coal strike in Pennsylvania and the Baitimore & Ohlo railroads are reported confiscating coal in transit. It is augusted to the points of high putart's excess atock of coal to Chicago to relieve the fuel familie.

Scarcity of Bessemer pig has caused a sharp advance, and billeta as well are higher, but the increased demand is based on prospective scarcity due to lack of tuel.

At western points, producers reported firmness of soft steel and mills supplied with orders for secral months. Shapes

Arnett Creek Gold Mining & Milling
Company Making Improvements.

By a vote of the stockholders the
capital stock of the Arnett Creek Gold
Mining and Milling company has been
Increased from \$100,000 to \$150,000 and
the number of shares in the same ratio. the number of shares in the same ratio.

the development and working of the properties.

The incorporators and stockholders of the company are all Sait Lake people, although the mines are located in Lemin in county, Idaho, near Salmon City. These properties are among the richest in the state and the company has already contracted for a mill, which is to be used in full operation by the middle of June. The machinery has been on the road for two months, but on account of the snow the teams have been unable to break through to the site selected for the mill and a lengthy delay has been the result. The improvements will cost in the neighborhood of \$15,000 and be only a starter for the company. At the present time the width of the ore body is unknown, as the miners have found but one wall. The rock averages \$35 a ton in free milling gold and some of it has been fabuously rich in the precious metal. The capacity of the mill will be ten stamps. This is an important move on this city, for the reason that all of the earnings will find their way here.

House Negotiations Are Off. A. Hanauer returned yesterday from Denver and Kansas City, where he

year. For four nonths of 1894, gross sterrings smount to 31E,000,000, a decrease trom the corresponding time last year of 183 per cent. Pacific railroads show the heaviest decrease and trunk lines the beaviest decrease and trunk lines the beaviest decrease and trunk lines the semalicst.

Even an unexpectedly bullish report by the agricultural department falled to stimulate wheat prices, in the face of excessive Argentine and Russian shipments, for Europe and heavy stocks in the United States.

CATTLE-Receipts, 2,500, 2,50

Joseph A. West, one of the managers of the Oregon Lumber company, a City railroad and the Salt Lake Rapid Utah institution operating in this territory and the state of Oregon, was in improvements in their North State the city yesterday afternoon on his street and First street lines, which in-

THE ASSESSMENT ROLLS.

This will give the company 50,000 shares of treasury stock which are to be sold as the requirements demand in the development and working of the Monday in June. Monday in June.

Stamps. This is an important move on the part of the stockholders of the company and will result in great good to this city, for the reason that all of the earnings will find their way here.

BACK FROM DENVER.

Mr. Hannuer Says the Clearing Hoose Negotiations Are Og.

Wonderland yesterday closed its doors permanently and the owners of the playhouse and its contents. It is claimed that the proprietors of the show paid practically all of their bills covered by the furnishings of the house. Poor business is given as the cause of the fallure. the failure.

NEW BUILDING FOR MAIN.

Observer Salisbury's crop review issued yesterday gives the following summary:

The past week was, for the most

present cheapness of labor and material and feels that he can make up for the deficiency of the rentals by the cost of the structure. Bids for the work will be asked for at once.
